Local wealth management firm, Wealth Management Group of NA, LLC (WMGNA) recently ran the ERRACE (Everyone Run/Ride Against Cancer Everyday) 5k in support of cancer research, specifically the Livestrong Foundation.

The WMGNA team raised approximately \$500 for the cause and one team member, Scott Schnurr, came in 1st place in the 5k race, with a few of his teammates trailing close behind. Brian Beck, president & CFO of Wealth Management Group of NA, LLC was humbled by his co-workers' dedication to the cause, as this organization is close to his heart. When the idea was first suggested to the office, everyone jumped at the opportunity to support Livestrong.

"Many of our clients have battled cancer, or have family members affected by the disease. We felt this was a wonderful opportunity to assist such a worthy organization. I appreciate the time everyone put into the event," Beck said.

A mixture of clients, employees and friends made up the team.
